

MOTION PLUS CORPORATION

SINCE 2004

Our Mission

Motion Plus Corporation Co., Ltd. is a leading specialist in power transmission systems and wear-resistant casting products in Thailand. We are the exclusive authorized distributor of HS Chain (China), as well as a distributor of several renowned European industrial brands, including IWIS (Germany) and KMH (Germany).

We provide end-to-end (turnkey) solutions, ranging from made-to-order manufacturing tailored to specific customer requirements, to serving a wide range of industries and client segments, including:

- Original Equipment Manufacturers (OEMs)
- Maintenance and repair operations (MRO)
- Wholesalers and retailers
- End users

With over 20 years of experience in the industry, we are fully equipped with advanced machinery, a skilled sales engineering team, technical technicians, and highly experienced engineering specialists.

Our international team and consultants are ready to provide technical support and engineering solutions tailored to our customers' needs.

We are committed to delivering high-quality products and reliable after-sales service at competitive market prices.

Our Products & Services

Motion Plus Corporation Co., Ltd. operates as a comprehensive distributor of industrial products, covering the following categories:

- Industrial chains
- Casting products
- Sprockets
- Bearings
- All types of industrial belts
- Custom engineered equipment

We select and import quality products from Europe, America, and Asia to thoroughly meet our customers' requirements.

Additionally, we offer a full range of engineering services, including:

- System design
- System fabrication and installation
- Machine modification and performance optimization
- Maintenance services
- Turnkey conveyor system solutions

The company serves industrial factories, machine manufacturers, wholesalers, retailers, and direct users across Bangkok, domestic provinces, and international markets.

With a team of highly experienced sales and production engineers, we closely supervise and control every stage of production. Furthermore, our engineering design team can create designs according to customer-specific requirements, backed by strong technical support from our international teams and senior consultants.
